

## Driscoll & Associates Inc.

Driscoll and Associates was founded in 1994 when David Driscoll embarked on a project to assist in the reorganization of a colleague's holding company. Since that time, Driscoll and Associates has successfully implemented projects in over 35 states and two countries, enabling businesses to become more profitable and efficient.

Driscoll markets and supports the Syspro ERP Solution. It's a complete enterprise solution for medium to large food & beverage, cosmetic, wholesale distribution, life science as well a number of other vertical companies. Driscoll has more than 12 years experience with Syspro, and has expanded their solution to include support for bar-coding, RF data collection,

and full EDI capabilities. Driscoll also provides system development in Visual Basic, E.net, and Netexpress languages. Their staff of developers will work with clients to design and develop a system appropriate for their specific needs.

"When there became a need for sales management we called Frank Fazio even before FSM Consulting was started. When we decided to create a web presence we turned to FSM Consulting. Recently we brought FSM in to analyze what we needed to do to compete in today's tough economic conditions."

“ I am thankful to FSM Consulting, for delivering a recent creative brand makeover, a professional custom total redesigned awesome website and the steps necessary to find new business and help close it. ”

Dave Driscoll, President Driscoll and Associates, Inc.
